

COA 690 / 790 GIS in Marine Science

Instructor: Wei Wu

2/13/2017

Due: 2/20/2017

Lab 3 Registration and on-screen digitizing

1. You need to complete all the steps on Pages 128-147 in the document “Getting_Started_with_ArcGIS.pdf”.

2. A few changes:

Step 10 on Page 135: You may close the Link Table by clicking “x” at the upper-right corner (not the “remove” symbol);

Step 17 on Page 136: You may ignore it.

Step 2 on Page 141: “Angle” should be “Direction” in ArcGIS 9.3.1.

3. What you need to turn in: A map to show the final work with all the map components: Spatial data, title, north arrow, scale bar, legend, and neatline.
